“Moving Pictures”

Our learning feels like the movies. There is always some action, fun and sometimes sadness. In Guided Inquiry, our class has been looking at Indigenous Australia. We have been investigating and presenting on Aboriginal technology and lifestyles prior to European Contact. It was interesting to touch Aboriginal artefacts. We had a visit from the SA Museum to look at life on Earth from millions of years ago to the present. We have also taken some time with Emma to reflect on life and think of our classmate Shanelle and her family in their time of loss.
